Services Offered

We aim to be as flexible as possible so that your holiday can be tailored specifically to your needs. The following can be organised at an extra cost.

We are happy to cook 3 course evening meals up to four times a week which will be left in your fridge/oven so that you are able to serve yourselves whenever you are ready in the comfort of your own chalet.

We can order take away meals for you or book tables at restaurants.

Transfers can be organised to get you from Geneva and back although we would always recommend that you have at least one car between you. Although all facilities are within walking distance or on bus routes, your own transport will make life much easier for you.

We work with door-step skis who will bring your hire skis/boards and boots to the chalet and fit them for you in the comfort of your own home. This saves time and hassle and means that you can get straight out onto the slopes on your first morning. They are always on call should you need any changes or repairs and will also collect your kit at the end of the holiday.

We have a good relationship with Jack frosts childcare (www.jackfrosts.com) and can organise either childcare for certain days of your stay or babysitting in the evenings.

We can also arrange for your lift passes to be ready for you at the chalet and help with booking lessons & guiding.
